

Bathroom Collection

2015

THE BOLD LOOK
OF **KOHLER**®

Kohler® collections make bathroom design simple and beautiful.

Our matching sanitaryware and brassware take the guesswork out of creating a look you love. You can feel confident designing your bathroom or en-suite because Kohler designers have done all the thinking for you.

Whether you're a seasoned designer or a novice, our products invite you to explore possibilities. Each collection can be a complete design solution or a solid starting point for mixing and matching and introducing your own personal touch.

And with styles that suit any home from contemporary to traditional, you really can't go wrong.

Kohler Heritage

What John Michael Kohler saw in 1883 when he looked at a cast-iron horse trough was the bathtub that launched a global plumbing company. That pioneering spirit of ingenuity – the kind that sees a bathing revolution in a horse trough – has defined Kohler Co. from its earliest days. A visionary, John Michael Kohler understood the importance of innovative design and an uncompromising commitment to craft and quality. After four generations, we remain a family-owned company with diverse international businesses and over 26,000 products and 13,000 patents to our name. Still leading the industry in innovation and design. Bolder than ever.

Design Innovations and Awards

Recognized for innovation and design excellence, KOHLER® kitchen and bath products have received consumer choice awards as well as celebrated design awards. We've designed more than 26,000 products and registered more than 13,000 patents, and we remain committed to bringing beautiful, purposeful design to life.

Industry Association Awards

- EPA 2010 WaterSense® Excellence Award: Kohler Co. – United States
- EPA 2008 & 2009 WaterSense Partner of the Year: Kohler Co. – United States
- 2009 PEI New Product Award – NSPE Mega Company Category – United States
- #1 in Brand Awareness: McGraw Hill 2009 Smart Market Report for Nonresidential Construction Market – United States

Design Association Awards

- Red dot product design 2010 – Honorable Mention: Rêve™ Bidet – Global
- Red Dot Product Design 2009 – Honorable Mention: Crevasse™ rinsing sink – Global
- Bronze 2009 IDEA® (*International Design Excellence Awards*): Karbon™ faucet – Global

Media Association Awards

- 2010 *Building Products* Most Valuable Product (MVP) Award: Flipside™ handshower – United States

- 2009 *Professional Builder*® 100 Best New Products: Flipside handshower – United States

Recent KOHLER Innovations

We've introduced a lot of "firsts" to the world for more than 140 years as a leader in kitchen and bathroom design. Whether it's pioneering work with new materials and technologies or adapting skills and methods passed down through generations, our designers and engineers work continuously to expand modern ideas of comfort, convenience and beauty.

1. Effervescence

Exclusive to Kohler, Effervescence is a sublime, all-encompassing hydrotherapy that creates small, champagne-like bubbles that cling to and stimulate the skin as they travel gently along the body. Water and air travel through specially designed ports to caress the body in a warm, slow-moving embrace.

4. Karbon

Pioneering the use of carbon fiber and pivoting joints in faucet design, Karbon articulating kitchen and bathroom faucets deliver unprecedented efficiency and an iconic modern design. The faucet holds any pose for hands-free operation – from fully extended to compactly stored out of the way and anywhere in between.

7. Artist Editions

With a precision that rivals watchmaking, a small team of designers and artisans in Kohler, Wisconsin are taking industrial design and glassmaking to new heights of artistry. Our glass designs – cast, spun, slumped or pressed – honor the integrity of natural materials and bring functional art into the home.

10. Torsion

Winner of a Red Dot design award, Torsion shower doors combine innovative functionality with exceptional quality and flawless design. Inspired by seamless modern architecture, Torsion doors feature cleverly hidden door mechanisms within minimal framing and hinge blocks finished flush with the glass. Deceptively simple, these doors are incredibly easy to clean and carry a lifetime guarantee.

2. Terrace - FreeDrain

Truly innovative in form and function. How can you conceal the waste and overflow on a washbasin? Kohler's new system combines the basin's open/close and overflow functions, with both positioned in the tap deck. This makes the basin look more streamlined, thus offering a minimalist design and easier care. The trap is located in the rear, freeing up space under the washbasin for more storage.

5. Katalyst

Engineering water to be bigger and better performing, Katalyst air-induction spray technology introduces a new way to think about single-function showerheads and handshowers. By infusing two liters of air per minute, Katalyst delivers a powerful, indulgent spray that clings to your body with large, full drops.

8. Flipside

Flipside showerheads and handshowers turn showering on its head – offering four distinct showering sensations, each with its own sprayface. Innovative Flipstream technology makes selecting a spray both simple and stylish. Just flip the sprayhead on its axis – no impossible twisting – and enjoy the spray that best suits your needs.

11. Moxie

Today your dream of listening to the radio or your own playlist under the shower has come true! Kohler has created Moxie, an exclusive showerhead that combines the delivery of water and music. It synchs with a smartphone, mp3 player or any Bluetooth device, streaming music directly into the shower. Rock to the beat while you shower!

3. Flight Safe

Discreet and elegant, this exclusive finish offers excellent anti-slip properties and a matte, pleasant-to-the-touch finish. With an excellent level of slip resistance (Class C, German standard DIN 51097), Flight Safe offers a superior resistance to stains and chemical agents with a good cleanability.

6. Digital Showering Systems

Redefining custom showering, DTV showering systems deliver personalized comfort and put complete control of your shower environment at your fingertips, from water to steam, music and chromatherapy. Choose from three digital platforms – DTV Prompt™, DTV and DTV II – to fit your budget and your life.

9. KOHLER Enameled Cast Iron

For nearly 140 years, Kohler has been crafting one of a kind enameled cast-iron products in Kohler, Wisconsin. Nothing makes an enduring statement to innovative design, lasting beauty and timeless craftsmanship like KOHLER Enameled Cast Iron. While other trends come and go, few materials can match its strength, style and soul.

12. Vibrant PVD

Physical Vapor Deposition, or PVD, is a process used in faucet finish applications. Working at the molecular level, Vibrant PVD finishes create an incredibly strong surface that is scratch- and tarnish-resistant. It is available on kitchen faucets and bathroom faucets and accessories.

Designing a comfortable, tailored space that captures your individual style couldn't be easier with KOHLER collections. Every detail of our collections is crafted to create an elegance of continuity as your eye moves from one piece to another. And our wide array of full-line collections helps you match the elements you need with a style you love.

Formilia-Rythmik

Formilia-Rythmik

The basin design features simple volumes and pared-down lines. The modernized utility-sink geometry provides a very original touch. This monolithic piece tops the cabinets that were designed for added storage. The Formilia Viragio WCs and bidets have cylindrical shapes and recall the basin's soft curves.

Benefits

- Vanity tops are available in 4 sizes (60, 80, 100 and 120 cm) with coordinating 2- or 3-drawer cabinets for more storage solutions
- Two compact versions, available for the 60 and 80 cm models, suit the smallest bathroom
- A ground underside version of the ceramic fixture has been developed to sit perfectly on the vanity cabinet
- A tall and reduced depth half-unit rounds out the collection
- Formilia Viragio WCs offer both comfort and water savings

Benefits

- A complete line of bathroom products deliver standard, compact and corner design solutions.
- Vanity tops and washbasins offer deep basins and wide ledges.
- Smart furniture details include slow-close drawers, drawer inside a drawer, storage basket, dividers and organisers.
- WCs with comfortable seating height and water-saving 2.6/4 L cistern.
- Thanks to our new wall-hung WC with CLEAN technologie, germs have nowhere to hide. By eliminating the rim, the WC provides:
 - A powerful flush
 - A high-performance rinse
 - A maximum hygiene
 - An easy care: immaculate in 5 seconds

Clean

Reach Clean Germs have nowhere to hide!

Our engineers and creatives redesigned your future toilet bowls by eliminating the rim and enhancing rear water propulsion.

The rim is the lip around the toilet that delivers water for rinsing the bowl interior.

But it is also the place where all kinds of germs hide.

A design with proven efficiency

- **Effective drainage:** thanks to the new propulsion system, water is powerfully propelled to the rear of the toilet to ensure optimal bowl coverage.
- **Full high-performing wash:** The fully-glazed ledge directs the water to the front of the bowl, thus providing optimal delivery on the sides. It helps wash the entire bowl and avoids splatter.
- **Maximum hygiene:** the deposit-free bowl surface lets water flow out easily, avoids areas for water to collect and prevents hard water deposits and germs from building up.
- **Easy care in 5 seconds:** No rim means every nook and cranny is accessible, every area is glazed and visible.

1. Powerfull flush for a high-performance rinse
2. No raised area inside bowl means no hard water deposits or germ buildup
3. Anti-splash ledge

Parallel

Benefits

- Wide range of sizes available with lengths up to 2 m.
- Customizable made-to-measure sizes optional available on request.
- Countertops are water resistant and available with cutouts for Rêve or Presqu'île Vessels basins.
- Accessories in brushed metal include a towel rail, towel rail bracket and end caps.
- Wall shelves, half units and base units provide additional storage.
- Mirrors come in a variety of sizes and feature LED lighting and an infrared sensor.

Riverbath

Rediscover all the natural sensations of a river's rushing waters – as gentle or as intense as you like. The waterfall caresses you and your entire body will be re-energised!

Benefits

- The 4 whirlpool, rapids, whitewater and waterfall sensations create bubbling vitality and relaxation
- 1 backlit keypad
- 4 upper jets for intense sensations
- 8 hydromassage jets
- 1 waterfall pillow for the neck
- A 3kW in-line heater keeps water at an ideal temperature
- A water level sensor prevents operation if there is not enough water in the bath
- 4 chromatherapy spotlights with: 32 hues, a blend of 8 rainbow colours, wash over you and repeat as you like
- You may rest on the colour of your choice for a stimulating or relaxing effect
- Integral bath fill

Whirlpool Systems

Whirlpool systems

Kohler whirlpool systems offer a range of benefits, depending on your mood of the day, whether you choose a light, relaxing massage or the stimulating movement of bubbling waters. In other words, a world of enjoyment for all tastes and preferences. Kohler can help you create your wellness space in the heart of your bathroom.

Design and performance

Waterfall headrest

A comfortable position and pleasant sensation of water streaming down the bather's neck.

Backlit keypad

A discreet, easy-to-use keypad. One button = One massage programme.

Gentle air massage

Your body is wrapped in millions of air bubbles.
The + : Invisible injectors on the bath bottom, performance-driven patented technology offering easy care and comfort.

Air & Turbo Massage

The water that is delivered works intensely over the body. The + : Back, side and foot jets fit flush for a discreet, clean look.

Chromatherapy

A high-luminosity spotlight colors your bath water. A set of colours for every programme.

Whirlpool Systems

Plus System

Enjoy the revitalizing benefits of water

- Water massage
- Chromatherapy
- 2 massage programmes: Silence, Tonic

Premium System

Take advantage of an invigorating or relaxing air, water or turbo massage – however you like it.

- Water, Air, Turbo massage
- 3 programmes: Silence, Tonic and Relax
- Chromatherapy
- Automatic drying and sanitizing cycle
- Cleaning cycle
- Silence Kit included

Excellence System

Lie back and enjoy an intense, relaxing moment.

- Water, Air, Turbo and Draining massage
- Water heater
- 4 programmes: Silence, Tonic, Relax and Wave (massage by zone)
- Chromatherapy
- Automatic drying and sanitizing cycle
- Cleaning cycle
- Silence Kit included

Chromatherapy System

Intensify your bathing enjoyment with a chromatherapy system. Chromatherapy uses coloured lights to for a unique effect on the bather.

A high-luminosity spotlight colours your bathwater. A range of 32 colours refreshes and re-energises your body and mind. You can rest on the hue of your choice at any time.

Whirlpool Systems

Whirlpool systems

Silence is golden

Silence Programme

The 3 systems we offer are equipped with a Silence programme – a massage sequence especially designed to be as quiet as possible (30% to 40% less noise than a typical programme).

Silence Kit

The Luxe and Excellent systems are equipped with a soundproofing kit (anti-vibrating insulation), and a Silence Box (soundproofing panels for optimized noise reduction).

CSTB

For the purpose of transparency, Kohler commissioned the CSTB (Science and Technology Centre for the Construction Industry) to measure the noise impact from their whirlpool baths.

Testing was conducted in accordance with the EN 15657-1 standard.

Sound levels in decibels

*Equipped with a Silence Box, Silence Programme (excluding waterfall)

Lithocast - Freestanding Baths

Affetto

The smooth flowing lines of the Affetto, resembling a rolled up parchment, make it the dramatic focal point for any modern bathroom. Made of exclusive KOHLER Lithocast™ acrylic, Affetto has a matte finish that resembles real stone, but feels warm to the touch. Affetto was inspired by the natural flow of water while ingeniously swirling. The hidden overflow design adds to the minimalist style of the bathtub.

Benefits

- Unique shape and freestanding design offer contemporary style
- Generous 185 cm length provides spacious bathing for up to two people
- Integral slotted overflow allows for deep soaking
- Easy to clean and maintain
- Center toe-tap drain with Lithocast cover

Freestanding bath
 Ø 150 cm
 1809K

Lithocast

A premium solid-surface material that allows for new geometries, textures and designs for the modern bath. Lithocast offers the beauty of real stone yet is warm and comfortable against the body.

Lithocast - Freestanding Baths

Abrazo

With an organic oval shape inspired by clay pottery, the Abrazo bath makes a striking focal point for your contemporary bathroom. The unique solid-surface material has the attractive matte finish of smooth stone but feels warm to the touch and is easy to clean. An integral slotted overflow allows for the deepest possible water level, and a center toe-tap drain with cover completes the stylish design.

Benefits

- Unique shape and freestanding design offer contemporary style
- Integral slotted overflow allows for deep soaking
- Easy to clean and maintain
- Center toe-tap drain with Lithocast cover

Freestanding bath
170 x 80 cm
1800K

Lithocast

A premium solid-surface material that allows for new geometries, textures and designs for the modern bath. Lithocast offers the beauty of real stone yet is warm and comfortable against the body.

Lithocast - Freestanding Baths

Askew

Aptly named for its charmingly angular silhouette, the Askew bath's striking design and clean lines make it a focal point for your contemporary bathroom. The unique solid-surface material has the attractive matte finish of smooth stone but feels warm to the touch and is remarkably easy to clean. An integral slotted overflow lets you enjoy deep, immersive bathing. The center toe-tap drain with cover creates a sleek look.

Benefits

- Unique shape and freestanding design offer contemporary style
- Generous 185 cm length provides spacious bathing for up to two people
- Integral slotted overflow allows for deep soaking
- Easy to clean and maintain
- Center toe-tap drain with Lithocast cover

Cast Iron Baths

Rêve

Add a striking centerpiece to your bathroom with this freestanding bath that doubles as a bold, sculptural work of art. A slotted overflow accommodates a deep, relaxing soak. This modern cast iron bath rests on a painted white composite wood base.

Benefits

- Freestanding design creates a striking focal point in your bathing area.
- Sloped lumbar support on both ends.
- Safeguard® slip-resistant surface on bath floor.
- Slotted overflow allows for deep soaking.
- Center toe-tap drain.
- Includes one wooden pedestal base, four cast iron adjustable feet, and one wooden overflow/drain shroud.
- Coordinates with other products in the Rêve collection.

Flight shower trays

Flight

Made of a dual component resin covered with a layer of acrylic, Flight shower trays are extremely sturdy. This combination of materials features excellent strength, durability and weight characteristics. The acrylic finish helps prevent chipping and provides a glossy, smooth, naturally anti-slip surface that is easy to clean.

Benefits

- Anti-bacterial protection (silver-ion treatment)
- Riser kit and watertight upstands options
- Dimensionally precise to the mm
- Stronger than acrylic, tested to 510 kg
- Less slippery than resin stone
- Lighter than resin stone
- Large sizes, up to 170 cm
- 4 cm height
- 10-year guarantee

Flight Safe - Optional Anti-slip finish

Kohler offers an innovative, optimal anti-slip solution on Flight shower trays.

The solution is innovative - thanks to an exclusive finish, sprinkled with aggregates with low granularity that make it visually unnoticeable and fully resistant; and it is optimal - thanks to excellent adherence performances that rank with Class C of German standard DIN 51097 (ramp angle above 30°). The two combined offer the best safety for use in the market.

SAFETY

Antibacterial technology

Flight shower trays stay protected for its whole lifetime thanks to the antibacterial treatment BioCote®.

This anti-microbial protection using silver ion technology is incorporated directly into the manufacturing process.

- **Effectiveness:** Effectively reduces bacteria and mold growth up to 99 % in 2 hours.
- **Safety:** Complements usual cleaning, acting as a second protection 24/7.
- **Durability:** Maintains its anti-microbial properties throughout the life of the shower tray. Will not wear away or wash off.

Ceramic shower trays

Replay & Reach

Replay and Reach shower trays present a contemporary minimalist design with a safe anti-slip glaze.

Benefits

- **Low profile:** Step-free flush-mount, or drop-in installation 18 mm above floor (Replay); lay-on installation, up to 60 mm above floor (Reach)
- **Safety:** Class B anti-slip glaze meeting DIN 51097 standards. Smooth and easy to clean with water and household products.
- **Drain performance:** A new-generation, high-flow waste (36 L/min) with a square, flush-mount cover. Water flows away from walls to prevent seepage and facilitate maintenance.

Infinite Possibilities

Whether you're designing a custom luxury shower, remodeling the kids' bathroom or simply replacing a showerhead, Kohler has a solution. With everything from digital shower systems and innovative spray experiences to line-matched trim in styles and finishes to suit every decor, we can walk you through an easy upgrade or help you create a home-spa retreat.

Infinite Possibilities

Designing the shower of your dreams?

What if the possibilities were infinite? What if you could create a custom shower that delivered everything from water to music and chromatherapy – all digitally programmed just for you and your family?

Stimulate your senses

As you design your dream shower, you'll want to think about the water delivery options you'd like to experience on a daily basis – targeted bodysprays, the downpour of a rainhead, and the versatility of handshowers and multifunction showerheads. Along with water experiences, consider adding SoundTile® speakers for music or a WaterTile® Ambient Rain® shower panel for chromatherapy.

Personalize your experience

Convenient, intuitive control of every component from water delivery to music selection is essential in creating a customized, luxuriously comfortable showering experience. You can rest assured our digital and manual thermostatic valves not only support each component with steady temperature and water flow but also give you complete, easy-to-navigate command of your showering space.

WaterTile

WaterTile bodysprays, showerheads and shower panels bring exciting innovation to luxury showering. These systems can be tiled into the shower wall or ceiling to create a unique and customised showering experience. Installed nearly flush to the wall, the number, height and position of the jets can create a truly individual shower experience.

- Create a perfect streamlined minimalist look
- Series of bodysprays and shower heads available
- Available in 22-nozzle, 25-nozzle, 27-nozzle or 54-nozzle for different spray intensities
- 22-nozzle, 25-nozzle and 27-nozzle delivers a high-volume, stimulating spray
- 54-nozzle delivers a voluminous, soothing hydrotherapy experience
- Fully adjustable pivot sprayfaces allow a variety of configurations
- MasterClean sprayface resists mineral build-up for years of reliable performance
- Pressure required: minimum 1.5 bar - maximum 5.5 bars
- Flow rates (3 bar): 5 l/min for Mini WaterTile, 7.5 l/min for WaterTile Round, 7.5 l/min for WaterTile Square, 30 l/min for WaterTile Rain with 4 WaterTile sprayheads

DTV Prompt

DTV Prompt is a digital showering system designed to enhance your showering or bathing experience with greater control, convenience and functionality.

- **Warm up your shower without wasting water:** once the selected temperature is reached, the water pauses until you're ready to step into it.
- **Set the timer to count your shower down:** DTV Prompt is perfect for setting shower limits in busy households or for water conservation concerns.
- **Safe temperature control:** limit the maximum temperature your water can ever reach – perfect for families with small children.
- **Run several configurations:** with two G1/2 water outlets, handshower, bodysprays, rainhead and bath filler, can function one after the other maximum flow 30 L/ min per outlet - or together with a maximum flow of 50 L/min at 3 bars
- **Easy to install:** the interface connects to the thermostatic valve via a standard phone cord and an RJ11 extension for greater installation flexibility. The thermostatic valve, equipped with a 12V transformer, connects to the power supply. A second interface may be installed inside the shower for enhanced comfort.

One-Touch Operation
On/Pause/Off

Large Digital Display
The large, intuitive LCD display makes it easy to use.

Diverter
Toggle between one or two water outlets with the push of a button.

Precise Temperature Control
Digital thermostatic valve technology guarantees accurate and safe temperature control within 0.5°C.

Recommended configurations and components:

Shower Option 1

- 1 X 13690D-CP Catalyst showerhead ø 305 mm
- 1 X E10039-CP Wall shower arm
- 1 X 15865D-CP Flipside showerbar
- 1 X E75142-CP Elbow outlet for hose

Bath

- 1 X 3877D-CP EO Large handshower
- 1 X 75206D-CP Smooth, anti-twist hose
- 1 X E8524-CP Wall bracket - 3 positions - for sprays
- 1 X E75142-CP Elbow outlet for hose
- 1 X 37344D-CP Strayt bath filler

Shower Option 2

- 1 X 12980D-CP Citrus showerbar ø 140 mm

Moxie

Moxie

Today your dream of listening to the radio or your own playlist under the shower has come true! Kohler has created Moxie, an exclusive showerhead that combines the delivery of water and music. It synchs with a smart-phone, mp3 player or any Bluetooth device, streaming music directly into the shower. Rock to the beat while you shower! Showerheads in two sizes (ø 130 mm/60 nozzles or ø 200 mm/80 nozzles) offer a full-coverage spray with reduced water usage 10 L/min. The sprayface is made of soft, scale-resistant silicon. Both can be fitted to a shower tower with a thermostatic valve or no tap fittings, for a partial shower renovation, or simply mounted to a shower arm and paired with the Modulo build-in system.

- Bluetooth connection (10-meter range)
- Catalyst technology (2 litres of air infused per minute) on ø 200 mm Moxie
- Listening time: 7 hours and USB cord supplied to recharge the integrated lithium battery
- Easy care, thanks to the sprayface in anti-scale silicon

Single-function showerhead with wireless speaker.

WaterTile Tower

WaterTile Tower

Create your dream showering experience with the WaterTile shower panel. It delivers a sophisticated, low-profile appeal while still including a thermostatic unit and one volume control valve per function. Plus, it can be easily connected to existing fittings (elbows supplied). With a generous shower head, pivoting side sprays, and discreet storage shelves, WaterTile Tower shower panel creates a true spa-like environment in your own home.

- Thermostatic valve for added safety
- Large, square shower head: 28 x 28 cm, 196 nozzles, max. flow rate 11 l/min
- Side shelves and top in black plexiglas
- Easy-to-manoeuvre sliding handshower holder
- Minimum dynamic pressure required: 1.5 bar
- 3 integral, pivoting bodysprays: 7 cm, 25 nozzles, max. flow rate 5 l/min
- Easy-to-reach magnetic squeegee
- Smooth, anti-twist hose
- EO small handshower (6 cm, 38 nozzles, max. flow rate 10 l/min)

Shower columns

These showers can only be described as generous. Square or round shower heads provide extensive water coverage without using too much water.

- Shower heads with generous shapes
- Anti-twist hose
- Sliding holder for handshower facilitates maneuvering
- Easy-grip handshower
- Discreetly-positioned diverter
- Anti-scale nozzles

Benefits**Full-Coverage Spray**

Envelops you in a revitalizing spray

**Anti-twist Hose**

Designed not to tangle

**Easy Installation**

Special features provide various installation options

Flipside

With Flipstream technology
Four unique sprays, one flip action

Flipside showerheads and handshowers bring you four distinct showering sensations, each with its own dedicated sprayface. Innovative Flipstream technology makes selecting a spray both simple and stylish. Just flip the spray-head on its axis to enjoy the spray that best suits your needs.

- Koverage: Ease away aches and pains and revitalize your body with a targeted massage spray
- Kotton: Relax and refresh with an exhilarating, drenching full- face circular spray pattern
- Komotion: Escape into relaxation with the enveloping downpour of a soft, luxury spa spray
- Kurrent: Enjoy superb, everyday performance with a full, wide spray and great rinsing power

**Bold.
Polished.
Style.**

Our faucet and accessory collections allow you to design bathrooms that are tailored expressions of your personal style. It's simply a matter of settling on a design and finish that's right for you and choosing the components you'll need – we've done the rest of the legwork for you.

Infinite Possibilities

Our faucets invite you to discover the possibilities of bathroom design. With styles that range from traditional to contemporary, KOHLER® faucets reflect our commitment to innovative, original design. From the very first design sketch to the moment each faucet and accessory is inscribed with the Kohler name, we obsess over every detail inside and out. Each piece is thoughtfully designed to be exceptional on its own, and each collection is perfectly proportioned.

Margaux

Margaux

Margaux brassware merges classic and contemporary into flowing feminine curves and crisp masculine edges. The result is an eye-catching collection that complements eclectic design with refreshed sophistication. The distinctive pillow-top detailing gives Margaux taps an understated flare.

- Solid-brass construction for durability and reliability
- Flexible stainless steel supplies simplify installation
- Kohler® finishes resist corrosion and tarnishing, exceeding industry durability standards over two times
- Ceramic discs for reliability and smooth operation
- Fluid design lines for ease of cleaning

Stance

Stance

Strong, architectural lines and a cubic base with softened contours. This is Stance, on its way to becoming a major classic. Stance is a broad collection that includes single-lever basin taps in two heights plus a wall model, single-lever bath and shower mixers, 2-handle mixers, thermostatic models and assorted accessories. Stance taps are equipped with joystick levers that combine a sharp, modern line with ease of use. Stance focuses on safety plus water and energy efficiency. The shower and bath/shower mixers come in thermostatic modes with temperatures limited to 50°C, thus avoiding any risk of scalding. The basin tap flow rate is limited to 5 L/min. This illustrates Kohler's interest in protecting the user and the environment.

Strayt

Strayt

With a sense of Bauhaus-like minimalism or 21st century modernity, the Strayt Collection exudes order, simplicity and efficiency, while inviting users to touch and feel. Strayt is composed of 17 models, including single-lever washbasin mixers in 2 comfort heights (medium and tall), a 3-hole mixer, single-lever bath/shower mixers, bath/shower thermostatic valves, built-in valves and a shower unit.

The Strayt collection will particularly appeal to those seeking a consistent, coordinated offering. Each model displays a cubic architectural austerity, while novel details (e.g., concealed aerator, square handspray) provide a unique creative touch.

- Angled integrated anti-scale aerator
- Flow limited to 5 liters per minute

Single-lever basin monobloc mixer
37327D - incl. pop-up waste
98339D - without pop-up waste

Toobi

Toobi

This tap draws inspiration from the playful exuberance of pop while offering an amazing touch of simplicity. Rounded forms contrast with the spout's oblique lines. The natural water delivery (limited to 8 L/minute on the washbasins) is another of the collection's unique features. Toobi also lets you personalise your bathroom fittings in a snap, by switching the supplied green, black or white spout inserts.

- 25 mm cartridge for washbasin taps and 35 mm cartridge for bath/shower mixers
- Colour inserts
- "Safe Touch conception" on shower and bath/shower taps

Aleo+ & Aleo

Flat surfaces, geometric profiles and softened lines provide modern comfort while an internal structure with a polymer passageway keeps water away from the metal parts. The water going in is as good as the water coming out.

The mixers are easy to care for: the aerator on the end of the spout can be replaced without a specialty tool... all you need is a coin. They are also easy to install and come with anti-twist hoses.

Finally, they are particularly water efficient (flow limited to 5 liters per minute) and fully express the standards and values of modern life.

Aleo+

Aleo+

With its narrower lever, Aleo+ presents a minimalist design and appears to be crafted just for the enjoyment of an intuitive maneuver.

- Flow limited to 5 liters per minute and isolated water passageways on washbasin models. Economizes on water usage and avoids risks of water contamination and scalding.
- Integrated anti-scale aerator
- Anti-twist supply hoses

Cuff

Cuff

The bathroom is a place of rest, quiet and harmony. We all want attractive, simple pieces that function intuitively. Cuff provides the answer with a broad collection of taps at a reasonable price. The soft lines and contemporary profile of the range make it a perfect fit for all bathroom types. The collection is composed of 15 brassware models, including single-lever washbasin mixers in 3 comfort heights (low, medium, tall), plus single-lever and thermostatic bath/shower mixers. The proportioned, balanced Cuff collection stands out with its cylindrical design that suits a wide range of bathroom styles.

Vas & Bol

Vas & Bol

Combining artistry and craftsmanship, the Vas mixer makes a striking statement in a contemporary setting. Water flowing gently from the spout is pleasing to both the eye and ear. Inspired by the antique apothecary pestle and mortar, the Bol ceramic basin mixer has a purely classic look. Water fills the tap body and gently cascades from the spout with a unique sound and feel.

- Ceramic body
- Single-hole mounting
- One-piece self-contained ceramic disc valve allows both temperature and flow control

Modulo

modulo

Reinventing the box.

Modulo - Reinventing the box

Modulo is a new build-in solution which will appeal to plumbers and consumers alike... because this clever little box has a lot to offer. Planning and installing bathroom brassware have become child's play, thanks to a simple, smartly-conceived solution. Modulo doesn't flaunt its talents... the system is discreetly concealed behind the wall.

The perfect equation: Modulo Universal Box + Valving/ trim sets = always the right solution!

The Modulo box is a build-in platform for shower and bath installations, and can be mounted onto traditional walls and drywall. Add a valve/trim set, and that's it!

A compatibility genius

Modulo is a chameleon-like system that can adapt to all bathrooms and meet every customer requirement, thanks to a host of valves and a wide range of trims of varying designs and price categories. Modulo supports trims that coordinate with no less than 13 Kohler single-control brassware.

Choose from four trim designs that work with thermostatic valves and 3-way diverters - classic, round, square and hybrid. One always fits, irrespective of which brassware you want to install.

A plumber's best friend

Modulo enters the ring with amazing features and offers practical assembly benefits. It is a useful problem solver in case of installation issues, therefore ruling out the risk of subsequent tiling or adjustment work.

- **Kohler's "Just Switch It!" patent**

If the hot and cold water inlets are inverted, Modulo offers a fast, uncomplicated solution with no additional spare parts: all you need to do is change the return valves on the thermostatic unit.

- **Perfectly-aligned installation, thanks to the following:**

- **Assembly frame (supplied):** This frame guarantees perfect positioning and hold, regardless of the installation configuration.
- **Level:** The level built into the cover also guarantees alignment.
- **Marking prongs:** Prongs on the box cover mark the section on the drywall with simple pressure.

- **Guaranteed seal and quiet** – The Modulo box offers maximum seal and sound insulation.

- **Impermeability:** The Modulo box is designed so that if water condenses inside the box, it will not leak into the wall but is channelled outside.
- **Sound insulation in accordance with DIN EN 4109:** A brass body with rubber rings prevents the transmission of noise.
- **DZR brass:** The brass used is dezincification-resistant, guaranteeing no porosity or cracking, and is securely protected from corrosion... for decades.

- **Practical installation solutions for satisfied customers**

There are options available for any installation challenges:

- Adjustment kits with 20 mm and 40 mm extensions if the box is inserted too deep.
- An annexing piece is available to connect 2 superposed boxes, along with an additional frame. This ensures optimal dimensional compliance and combines the two boxes into a single unit.

Karbon

Karbon
Articulating single control tap with "joystick" control positioned left or right
2 spray options: Laminar and aerated
Fold-up height 228 mm, maximum reach 337 mm

6227D

Karbon
Articulating wall-mount kitchen faucet incl. wall-mount mixing valve
6228-C11

Karbon

A sleek hybrid of functionality and contemporary design, the Karbon kitchen sink tap delivers water exactly where you want it. Its silver tube design features three articulating pivot points for total range of motion: extend the faucet fully to fill large pots, lower it into the sink for food preparation and cleanup, or fold it out of the way when not in use. An in-the-deck joystick valve gives you precise control of water temperature and flow.

- 3 pivot points
- Diverter button switches between Laminar and spray options
- "Joystick" lever can be installed to the left or right of spout

Faucet Finishes

Benefits

- 
Lasting Finish
Resists corrosion & wear
- 
Water Conservation
Save water without sacrificing performance
- 
Effortless control
Sprayhead

Carafe

Kitchen faucet
 Ready-to-install kit with filter.
 Height 318 mm, reach 196 mm
 18865D

Replacement filter
 Filtration capacity 7500 L.
 R8A360NF

Carafe

Providing cold filtered drinking water on demand, the Carafe kitchen tap introduces a unique level of functionality with contemporary styling. The sleek design combines all the benefits of a single-lever kitchen faucet with the convenience of built-in water filtering, eliminating the need for additional filtering systems and keeping your sink area uncluttered.

- 2 separate controls: mixed water and filtered water
- Adjustable water limiter
- Complete ready-to-install kit

Faucet Finishes

Benefits

- 
Easy Installation
 Special features provide various installation options
- 
Lasting Finish
 Resists corrosion & wear

The Kohler Family of Businesses
